REASONS FOR ALLOWANCE

1. Claims 2, 5, 7-13, and 15 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 10 and 12, prior art does not disclose or fairly suggest a timing device wherein code markings of a first group are bars of equal width and equally spaced from one another, whereas code markings of at least one high-order group are distributed over a code track with an arbitrary spacing and are formed by step changes from a first optical density level to at least a second optical density level of bars, in combination with all the limitations in each respective claim. Claims 2, 5, 7-9, 11, 13, and 15 are allowed by virtue of their dependency.
